

FIELD SERVICES

ONSITE SUPPORT WITH NATIONWIDE COVERAGE

With extensive skills, expertise and nationwide coverage across New Zealand and Australia, Lexel's Field Services provide onsite support, delivering service excellence that your business can rely on.

Across all major hardware and software brands, Lexel has a wealth of experience for your organisation to leverage. From desktop support to project delivery, our commitment to service excellence underpins our approach to business.

Field Services

Consulting. Lexel offers a range of consulting services, from technical account management to project management and strategy.

Onsite end user support. Lexel's end user support spans all major hardware and software brands. With nationwide coverage, our team supports:

- Software
- Applications
- Desktop
- Networking
- Virtualisation
- Infrastructure
- Security
- Cabling
- WiFi
- Printers

Relocations. Lexel's experienced relocations team can manage your entire move, from the technology and cabling to the boardroom table! We partner with reputable moving companies, and can offer preferential pricing.

Partner Certifications

Lexel's strength is demonstrated through our breadth of globally recognised partner certifications.

Workshop services

Integration. Customisable service integrating software, hardware and/or data prior to delivery onsite. Remote or onsite services are available for final setup.

Spares management. Keep downtime to a minimum with replacement stock on hand when you need it, tailored specifically for your organisation's needs.

Hardware disposal. Disposal of your retired hardware assets in a secure and environmentally friendly manner.

HP warranty management. Lexel can arrange the repair of your HP servers and end-point devices, regardless of whether they are inside or outside their warranty period.

Lexel have been great about suggesting ways to improve our structure and system security and backups. When it comes to IT support, they really offer a pro-active and complete solution.
