

BACKUP FOR MICROSOFT OFFICE 365

PROTECTION FOR YOUR VALUABLE DATA

For organisations migrating to Microsoft Office 365 or Microsoft Exchange online, the need for data protection remains. Lexel can help your organisation meet data protection, recovery and compliance requirements.

Although Microsoft Office 365 delivers a secure, backed up cloud solution, this does NOT replace the need for your organisation to maintain an additional backup.

Why back up Microsoft Office 365?

Although Microsoft Office 365 provides a limited 30 day retention policy for deleted email items, it:

DOES NOT provide long term backup of users email or data
DOES NOT protect against accidental or intentional deletion of email or data.

With Lexels Backup for Microsoft Office 365 managed service, your Microsoft Office 365 data is kept safe, secure and available when you need it. A cost effective and flexible solution, benefit from:

- Easily accessing email data
- Easily recovering individual mailbox items
- Efficiently performing eDiscovery of email archives

Keep data for as long as you need to, storing it based on long-term retention policies.

Lexels Backup for Microsoft Office 365 is available as a managed service standalone or as an add-on to our fully managed backup solution. Both options provide peace of mind - knowing your backup solution is implemented to best practice standards, and managed by Lexels team of dedicated backup experts.

Features include:

- Protection for Microsoft Exchange Online
- Protection for Microsoft OneDrive and SharePoint
- Protection for hybrid email deployments
- Data storage in the cloud or on premise
- Mail search and eDiscovery options
- Flexible recovery options
- Full management and support

BUSINESS BENEFITS

Affordable and secure. For an affordable monthly fee, and no capital expenditure, your data is securely backed up to the cloud.

Reliable. Once your data is backed up in the cloud, you dont need to do anything further. Your backup occurs on time, on schedule.

User confidence. With instant recovery, give users confidence they can access their work information when, where and how they want to.

Business continuity. Retain data of users that no longer have an assigned 365 license. Instantly restore data accidentally or intentionally deleted.

Access to experts. Solutions are implemented and managed by Lexels team of dedicated backup experts.

Efficient. Once the initial backup is complete, only incremental changes are backed up, reducing network utilisation.
