

MICROSOFT SQL SERVER

SECURITY & COMPLIANCE

Lexel's dedicated team of Microsoft SQL Server specialists offer a broad range of services to meet all your modern data platform requirements.

Reduce risk by proactively securing your organisation's most valuable asset - your data.

The team at Lexel can help protect your data with robust security and compliance services, solutions and support.

Compliance

For organisation's required to pass regulatory compliance audits, auditors require proof that compliance policies and controls are in place. These policies and controls ensure the integrity, availability and security of your Microsoft SQL Servers and corresponding data.

Lexel can assist with implementing internal controls across your entire Microsoft SQL Server data estate, providing reports specifically aligned to compliance regulations and requirements, including:

- PCI DSS
- HIPAA
- SOX
- FISMA / NIST800-53
- COBIT
- ISO / IEC 27001

Partners

Collaborating with industry-leading partners within the Modern Data environment, Lexel offers Microsoft SQL Server security audits, performance monitoring and maintenance second to none.

Our services include:

100-point security assessment. Gain valuable insight into your organisation's security risks, and how to best remedy them. Through a series of industry best-practice checks such as CIS benchmarks, the Lexel team test and check all aspects of your SQL Server configuration, including individual databases.

Strategy. Implement the correct security strategy (aligned to current industry best-practice guidelines), to protect your business in the event of a breach.

Monitoring. Gain complete visibility into critical changes and suspicious logons through effective detection and swift responses to security incidents.

Reporting. Pass compliance audits with less effort and quickly answer adhoc questions from your auditors.

Managed services. Lexel will configure and maintain your Microsoft SQL Server data estate, aligned to current industry best practice guidelines with SLAs that best meet your organisations requirements.

24 x 7 x 365 support. Lexel's experienced New Zealand based team offers mission-critical support, when & where you need it.
