

OFFICE 365 BACKUP AND RECOVERY

INDEPENDENT PROTECTION OF YOUR DATA

Lexel's team of backup and recovery experts provide peace of mind; ensuring your Microsoft Office 365 data is safe, secure and available when you need it.

Although Microsoft Office 365 data is stored securely in the Microsoft data centres, **it is your responsibility to protect it.** An independent backup separated from the Microsoft Office 365 applications your organisation relies upon, is critical.

With Lexel's backup and recovery managed service, you can protect your organisation's valuable data **far beyond** what is provided in Microsoft Office 365.

	 Microsoft	 Lexel
Once daily backup	✓	✓
3 x daily backups	✗	✓
Restore SLA	None	Immediate
On demand backup	✗	✓
Point in time recovery	✗	✓
Data retention	30 days	Infinite

Our solution also includes:

 24 x 7 monitoring of your backup solution.

 24 x 7 local support and helpdesk.

 5 x free file and folder restores a month.

Available for: Microsoft Teams, Skype Online, Exchange Online, SharePoint and OneDrive.

Your organisation will:

 Recover quickly from any form of data loss.

 Maintain deprovisioned user data to save money on licenses.

 Recover to a point-in-time before a ransomware attack occurred.

BUSINESS BENEFITS

100% OPEX with easy monthly payments*.

Backup frequency. 3 x daily at 8-hour intervals instead of daily, or on demand.

Business Continuity. Access your data even when Microsoft Office 365 is unavailable.

Restore data. Restore data in seconds to original or alternative user - in original file format.

Point-in-time backups. Restore from a snapshot in time, for example last Thursday at 8pm.

Reduce licensing expenditure. Maintain deprovisioned users data, without a license.

Auto-add. Automatically detect and add new users and new sites (including Teams and SharePoint).

Security. Private cloud backup location has built-in redundancy, geo-replication and encryption.

Compliance. Supports GDPR compliance. Data stores compliant with HIPAA.

Full business restoration (optional add-on). In the event of a disaster, restore access to all data and applications, either remotely or physically transported to a new site of your choice.

**One-off installation fee and a minimum 36-month contract term applies.*

Protection for your organisation

The team at Lexel can help protect your organisation from the most common data loss pitfalls:

 Human error

 Malicious insiders

 External hackers

 Viruses & malware

 Programmatic errors
